

YOUR SONGS

MAKE A LIST OF THE SONGS YOU WOULD LIKE TO PLAY ON THE GUITAR

Once you have made this list then I can listen to the songs, work out how to play them, and then teach them to you.

It's good to set goals in your guitar playing. So, choose a range of songs from ones that sound easy to play to ones that sound more difficult.

If you have an iPod then put together a playlist of these songs. If you can bring your iPod along to your lessons that will make it quicker for me to listen to them. I can also search for the songs on YouTube using my iPad.
